

PSE&G's McCarter Switching Station:

PROVIDING REAL BENEFITS TO THE COMMUNITY

PSE&G's McCarter Switching Station on Littleton Avenue will serve the needs of customers like you, keep your lights on and support a safe, healthy environment for your children, your families and the entire community.

This project will:

Keep the Power On

- Around the clock, day-in and day-out
- In storms and emergencies

Improve Public Health and Safety

- Clean up a contaminated site
- Build and operate a new, clean facility that produces **no** emissions with **no** health issues

Benefit the Economy

- Provide tax revenues for the city
- Support business and economic growth

Help Beautify the Neighborhood

- With attractive brickwork, landscaping, old fashioned street lights and many other improvements

This project is backed by PSE&G's Strong Commitment to:

- Serve our customers
- Help strengthen communities
- Invest in the City of Newark
- Engage with all people to build a brighter future together

Please join us at the June 27th Zoning Board Hearing at City Hall, 2nd floor, 7:00 pm. Support reliable and sustainable electric power for Newark's Future!

PSE&G

We make things work for you.

The West Ward Speaks Up

Greenwich Parfait West Ward Homeowner

"I worked for Con Ed for several years as a union electrician, and I worked in switching stations. I know what a utility needs to keep the lights on. Newark's population, and the number of businesses it supports, have grown so much in the past couple of years, that increasing electric capacity is a number one priority. More reliable energy will just attract more and more businesses. It's my professional opinion and my conviction as a West Ward homeowner on Littleton Avenue: We need the McCarter Switching Station."

Angela Roberts West Ward Homeowner

"My life is busy, busy, busy. I don't have time for outages or brown outs. I need to be able to count on my energy source, just like my neighborhood businesses do."

Thurman Phillips Newark Firefighter

"As a first responder, I know a reliable infrastructure is our first line of defense. I live and work in the West Ward. I remember what happened after Sandy. Anything that can mitigate that risk in the future is good for our city."

Michael Gordon Assistant Manager Gone9 Cigar Store

"I run a business in the West Ward on Littleton Avenue. I prosper when my neighbors prosper, and reliable energy will promote economic growth for us all."
